REMARKS

Claims 2-22 and 24-27 remain for consideration in this application. Applicant appreciates the recognition of the allowability of all the remaining claims, subject to the correction of the matters of formality raised in the Office Action of September 13, 2005.

With respect to the drawings, applicant has made the corrections as set forth in the Office Action. It appears that the drawing sheets for Fig. 1 as originally submitted with the application had the intended reference characters which avoided the problem of double numbering referenced by the Examiner in the Office Action, but applicant's earlier amendment responsive to the Office Action of September 3, 2004 should have changed the text of the Specification rather than the drawing Fig. 1. Applicant's amendment now corrects the language of the specification at page 7, lines 13-21 to avoid the double numbering and amends drawing Fig. 1 to correspond to the drawing Fig. 1 as originally filed.

With respect to the claims, Applicant has amended claims 14, 19, 21, 22 and 26 to address the objections raised in the Office Action. Applicant believes that these amendments address the rejection under Section 112 and the objection to claim 22, and place the application in condition for allowance. If the Examiner has any questions or requirements in this regard, Applicant solicits a telephone call to Applicant's attorney in order that any remaining issues may be resolved by Examiner's Amendment, if necessary.
